BADR AMINE

Front end Developer

DETAILS

Malmo, Sweden
badramine17@gmail.com
+45 52780413

PROFILE

Passionate front-end developer has been working for 3-4 years in software development. Knowledgeable in JavaScript and its framework such as React for Web Development and React Native for Native Development.

EMPLOYMENT HISTORY

Frontend Developer, SocialTechProject, Copenhagen, DK

JUNE 2019 — JUNE 2021

I have been the only front-end in the team, building the entire app and infrastructure from scratch, the app WeSolve is now online and usable. I have designed the wireframe of the app, taking care of the UI/UX of the app, besides developing using React Native and React-navigation, Redux, Expo. I have managed to build the components all from scratch without using external libraries, gaining experience in CSS.

RFduino Developer Internship, HWA srl, Rovereto, IT

MARCH 2015 — JULY 2015

Develop a shield called RFduino capable to communicate in BLE (Bluetooth Low Energy) with daily basis accessories such as lights, TVs, etc. This device is connected to a Mobile/Tablet that through a native app was able to interact with these appliances.
